

GEOLOGICAL CROSS-SECTION II

Density
Coarse soil
 lp - very loose
 p - loose
 vt - medium dense
 t - dense
 lt - very dense

Stiffness
Fine soil
 ls - very soft
 s - soft
 vst - medium
 st - stiff
 lst - very stiff

HORIZONTAL SCALE
 not to scale

VERTICAL SCALE
 0 5 m

UAB Geobaltic

Geological cross-section: II

SITE: Geophysical and geotechnical sea bottom survey
 ADDRESS: Lithuanian Baltic Sea territory

Legend

- Poorly graded silty-clayish sand
- Sandy gravely low plasticity clay and silt
- Low plasticity clay and silt
- Low plasticity clay
- Sandy low plasticity clay

borehole
 1,5 groundwater level
 115,20 surface
 1,5 - genetic margin
 (6) vs - IGS number / strength
 3,0 - soil strength boundary
 6,0 - borehole depth
 - CPT depth
